The 6,288-foot Summit of Mt. Washington: "The Second Greatest Show on Earth," is what P.T. Barnum proclaimed in 1869 after arriving at the top of the highest peak in the Northeast on the Mt. Washington Cog Railway. Enjoy a three-hour round trip that includes a one-hour layover at the top, plenty of time to explore the Visitor's Center and rooftop observation deck, interactive weather exhibit and even send a postcard with a unique Mt. Washington post mark from the summit Post Office. Enjoy a delicious seasonal lunch at the historic Omni Mt. Washington Hotel.
